

Getting Ready for Climate Change in Thunder Bay

Date: Monday May 28, 2018

Time: 10:00am-11:00am EDT (please note your time zone)

Photo by: City of Thunder Bay

Description

This webinar will present information on Thunder Bay's Climate Adaptation Strategy and the new climate change website aimed at connecting information, actions, and stories to inspire climate engagement in the Thunder Bay region.

This webinar is presented by the Northern Climate Change Network (NCCN) – a working group of five municipalities in northern Ontario who are working together to develop innovative solutions to prepare and adapt to the impacts of climate change.

Presenter

Amy Coomes is the Climate Adaptation Coordinator for EarthCare Thunder Bay, the sustainability group at the City of Thunder Bay. Amy has an extensive background in environmental program development, promotion, and implementation. She is currently responsible for coordinating, implementing, and updating the City of Thunder Bay's Climate Adaptation Strategy. Eager to integrate climate adaptation across the Corporation, Amy looks forward to collaborating with stakeholders to coordinate decision making and planning efforts, in order to reduce vulnerabilities and build resilience in Thunder Bay.
