

OUTREACH PROGRAM FOR KIDS

Science in Action energy workshop

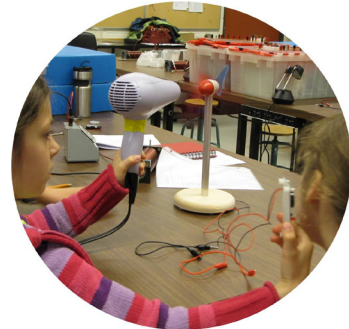

EXPLORING ENERGY: CONVERSION, CONSUMPTION AND CONSERVATION

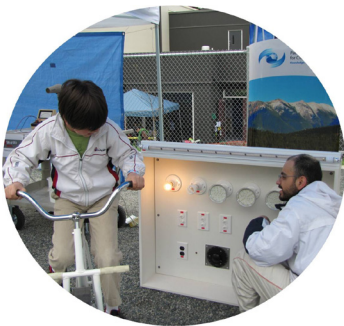

How hot do black and white plates get?

This mini hydroelectric turbine can light an LED bulb.

This wind turbine generates enough power to play a song!

How much energy does it take to light a 60 watt bulb?

Demonstrating the greenhouse effect.

Who: Children from Grades 4 to 7.

Location: Simon Fraser University, SFU Burnaby Campus.

When: Starting this Fall, 2011.

To book your class/group: Call at 778-782-8834 or email to Nastenka Calle at n_calle@sfu.ca
